The primary way that Congress has performed this function with regard to science is through the enactment of the Patent Act and the creation of the Patent and Trademark Office (PTO) to administer application of the act. Recent decades have seen a great expansion in the amount and importance of research in the life sciences and their applied counterparts, biotechnology and pharmaceuticals. Coinciding with this expansion is an expansion of the role of the Federal Government in producing and regulating these areas of research and technology. This expansion has seen both PTO and the Federal...
