Createspace, United States, 2012. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.This is a small book to help dyslexic students and adults improve their academic study skills and on-the-job learning skills. Academic learning is often difficult for dyslexics. Most of us do not get to go to college and often do not land the good paying jobs because we speak and read poorly, write badly and spell badly, too. I had graduated High School a very poor student with a 1.0 grade average and virtually no academic skills. Low paying jobs was to be my lot. Then, I entered a community college and was forced to find systems and methods to stay in school so I could eventually enter a four year University. After graduation with a BA degree, I found my entire future had changed. This book offers the systems and methods I developed (because I spoke and read poorly, wrote badly and spelled badly) to get into college and get good grades, then land jobs that required good learning skills. Often, the more academically demanding the job was the higher the pay was too. These systems are easy to learn and use and require no other instruction, classes or equipment.
