Excerpt from Junior High School Mathematics Second Course In planning this Second Course in Junior High School Mathematics, the authors have kept the following points in mind: 1. That instruction in mathematics in the eighth school year should continue along the same general lines as in the preceding year. 2. That, from the study of the First Course, the pupil has acquired the following ideas and habits: (a) By checking, the habit of assuming responsibility for the correctness of his results. (b) By estimating his results in advance of the computation, a rational idea of number values. (c) By using the equation in ratios and formulas, some appreciation of its value as a mathematical tool. (d) By measuring and drawing to scale the common geometric figures, some acquaintance with the properties of these figures. (e) By the graphic interpretation and representation of number data, some knowledge of the importance of the graph in science and industry. (f) By emphasizing the idea that percent is a ratio per hundred, a comprehension of the fundamentals of percentage. About the...
